

Working for Wolf Conservation Since 1982

About Wolf Haven International

Wolf Haven International is a 501(c)3 organization that has worked for wolf conservation since 1982. Our mission is threefold: to provide sanctuary for displaced, captive born wolves; to provide education to groups of all ages, teaching them not only about wolves, but about their habitat and the value of all wildlife; and, to promote preservation and restoration of wolves, focusing on the critically endangered red and Mexican gray wolves.

Our sanctuary and education department welcome over 25,000 visitors each year. By combining education and the opportunity to actually *see* wolves, along with outdoor activities, such as eco-scavenger hunts, interpretive games, camping and hikes, we are able to give our visitors a better understanding of wildlife while inspiring them to walk, play, observe and participate in nature.

Learning to live with wolves is a topic we are dedicated to exploring. We were instrumental in developing "Living with Carnivores," an educational series of presentations and literature devoted to educating the public on how to co-exist with large carnivores—an important topic in today's world as we expand our borders, and continue to encroach on theirs.

For 26 years, Wolf Haven's accomplishments have been many. There are no limits to the population we serve. Young and old from all parts of the world make their way here to the Pacific Northwest to be a part of Wolf Haven. Each day welcomes new classrooms, boy scouts, girl scouts, or families looking for a unique and enriching activity they can share in together.
